Cross Borders Small Amount Exchange

03

Yannick 04/05/2016

Introduction

- Most developing countries do not have strong architecture built for convenient economic transactions; most of the transactions are based on cash.
- A good way to improve the industries of tourism is to provide similar credit card processing system, like VISA and Master Card.
- There is the opportunity as the middle man to provide services of cash withdraw or payment on behalf.
- With Paypal service, there is also additional benefit: insured payment to service provider (middle man).
